

NZ Package Bees With Queens

*Please check Packages before leaving Scandia Honey. Once they leave – they are yours to love. ♥

****Scandia Honey is not responsible for
the bees after they leave Scandia.****

*Shake packages into a hive **As Soon As Possible** – we prefer night-time release. Carefully release the Queen out of her cage into the hive – they have travelled together and will accept.

3 MUSTS;

- 1) have built out frames with wax (do not just use plasticell)
- 2) have sugar water inside, *2 cups sugar to 1 cup of water*
- 3) have hives in a sheltered area.

**If you have any questions – please ask.*

We want you to have success with your package(s).

Good luck and have a great season.
